

KRAFT POWER SYSTEMS

Solar Lanterns

Solar power is the best resource of energy conservation. We are recognized for supplying Solar Lanterns at affordable prices. Our company has several varieties of this product range with outstanding quality. etc.

We have wide range of Solar Lanterns with best quality that includes:

- Solar Lantern with High lumens, high brighter LED's.
- Battery power ranging from 4.5 Ah to 7 Ah
- Long and maintenance free life with easy to change spares
- Built in electrical charger with overcharge protection for safety and long life
- Unique LED indicators for comfort.
- Available with Monocrystalline panels
- Ideal for camping, rural areas and where getting electricity is not possible or is scarcely available

Technical specifications of solar lantern (3 watt) :

- High brighter Leds Solar Lantern With Linear LED's In 360°.
- Built In Long Life 6 Volt 4.5 Ah Sealed Lead Acid Battery
- Overcharge Protection Circuit
- Power Indicator For Charging Functions
- Unique 360-Degree Light Distribution
- Can be Continues Switch on for more than 10 hrs.
- Backup Time After A Single Charge Of 30 To 36 Hours
- With 3 Watt Solar Panel

Rs:- 2050/-

Technical specifications of solar lantern (5 watt) :

- High brighter Leds Solar Lantern With Linear LED's In 360°.
- Built In Long Life 6 Volt 4.5 Ah Sealed Lead Acid Battery
- Overcharge Protection Circuit
- Power Indicator For Charging Functions
- Unique 360-Degree Light Distribution
- Can be Continues Switch on for more than 10 hrs.
- Backup Time After A Single Charge Of 30 To 36 Hours
- With 5 Watt Solar Panel

Rs:- 2450/-

KRAFT POWER SYSTEMS

Technical specifications of solar lantern (10 watt) :

- High brighter Leds Solar Lantern With Linear LED's In 360°.
- Buit In Long Life 6 or 12 Volt 4.5 or 7 Ah Sealed Lead Acid Battery
- Overcharge Protection Circuit
- Power Indicator For Charging Functions
- Unique 360-Degree Light Distribution
- Can be Continues Switch on for more than 10 hrs.
- Backup Time After A Single Charge Of 30 To 36 Hours
- With 10 Watt Solar Panel

Rs:- 4000/-

Technical specifications of Solar Torch: -

- High brighter Leds Solar Lantern With Linear LED's In 360°.
- Buit In Long Life 6 Volt 4.5 Ah Sealed Lead Acid Battery
- Overcharge Protection Circuit
- Power Indicator For Charging Functions
- Made For Unbreakable Material
- Can be Continues Switch on for more than 10 hrs.
- Backup Time After A Single Charge Of 30 To 36 Hours
- With 3 Watt Solar Panel

Rs:- 1650/-

KRAFT POWER SYSTEMS

Solar Home Lightning:

Solar Home Lightning Backup of 4 hrs:

- Brighter LED's Fitted Two wall fittings.
- Load 10 watt
- Well programmed Charge Controller System
- Solar Pv Module
- Battery 12 V Tublar Or Sealed
- Cable
- Charging Time Is 6 To 8 Hours
- Backup Time After A Single Charge Of 45 To 60 Hours
- Overcharge Protection Circuit

Rs: 5200/-

Solar Home Lightning Backup of 8 hrs:

- Brighter LED's Fitted Two wall fittings.
- Load 10 watt
- Well programmed Charge Controller System
- Solar Pv Module
- Battery 12 V Tublar Or Sealed
- Cable
- Charging Time Is 6 To 8 Hours
- Backup Time After A Single Charge Of 45 To 60 Hours
- Overcharge Protection Circuit

Rs: 6100/-

KRAFT POWER SYSTEMS

Solar Home Lightning + Fan Backup of 4 hrs:

- Brighter LED's Fitted Two wall fittings.
- High speed DC Table Fan
- Load 25 watt
- Well programmed Charge Controller System
- Solar Pv Module
- Battery 12 V Tublar Or Sealed
- Cable
- Charging Time Is 6 To 8 Hours
- Backup Time After A Single Charge Of 45 To 60 Hours
- Overcharge Protection Circuit

Rs: 10500/-

Solar PV Moduls

Kraft Power Systems is Distirbution company of all sizes of Photovoltaic moduls. Ranges from 3 watt to 200 watt solar panels at very affordable prices. i.e. Rs. 155 per watt.
